February iPod Winner Announced
See below for details

Welcome to Hercules Scaffolding's March Newsletter 2009

Insurance Companies Look to Hercules

Insurance specialists, Surveyors and Loss Adjusters look to Hercules Scaffolding to provide a nationwide scaffolding service for emergency works. Hercules provides false roofs following commercial & domestic fires, flooding and wind damage.

Hercules, now firmly established as one of the UK's leading false roof suppliers, provides a 24 hour emergency call out service. Paul Wilson, Hercules Contract Supervisor for the UK, explains that a quick scaffolding turnaround is essential to reduce any further water ingress into a building following a fire or wind damage to a roof, saving thousands of pounds in further costs.

More and more of the UK surveyors look to Hercules expertise in both traditional C.I. roofs and Haki Temporary Roofs to provide a fast and efficient turnaround.

Hercules have scaffolding depots in London, Birmingham and Bristol providing 3 excellent geographical locations to reach our clients.

Hercules has recently been contracted to provide a high rise scaffold running to the 14th floor of a major block of flats in London following a residential fire. The scaffold will be used to provide working platforms for operatives to re-clad the exterior of the building and replace the damaged windows.

For more information on our emergency services & false roofs contact Paul on 0778 810 8566 or email sales@herculesgroup.co.uk

C.I Roof

Please contact sales@herculesgroup.co.uk or Call us on 0845 003 9089 to discuss any new project requirements.

Ministry of Defence Appoint Hercules

Hercules Scaffolding was contracted to design & build an abseiling tower for the Royal Marine Commandos.

Standing at 22m height, the scaffolding tower was part of the Royal Marine Commandos Recruitment and Display show held in Bristol.

The structure was purposely designed with all the necessary calculations by our scaffold engineers in Bristol.

Designed to be self standing, the scaffold incorporated additional buttressing with concrete kentledge.

The scaffold was erected on time and to schedule and the show was a roaring success!

The Royal Marine Commandos had this to say to Hercules:

"Thank you very much to Hercules for your assistance with Meet the Marines in Bristol. Some 270 young people used the tower and were in varying degrees excited, scared and terrified by it. The Marines taking part had a go and thought it awesome!"

A further 2 abseiling towers have also been ordered for 2 additional Commando training centres in the UK

New Vehicle Operator Service Agency (VOSA) Government Test Hall & Offices

Hercules Scaffolding has been appointed to provide all the scaffolding requirements for the new VOSA test hall & offices in Avonmouth Bristol. VOSA is a road safety government agency providing licensing, inspection, testing and enforcement services with the aim of improving roadworthiness & road safety.

Working closely with VOSA the scaffolding services provided by Hercules included: Edge protection, Safety Man Netting, progressive scaffolding for brick and block work, scaffolding for the exterior glass installation, lift shaft scaffolding, loading bays and Haki staircases.

Hercules has been delighted to have been involved in this prestigious project which is running well within schedule and to budget. Hercules is now in discussions with a view to working on a new VOSA project near London.

VOSA's main contractor had this to say after the project was completed:

"We would like to pass on our thanks for the quality of service that Hercules has provided to this project and we look forward to working with Hercules again in the near future."

Please contact sales@herculesgroup.co.uk or call us on 0845 003 9089 to discuss any new project requirements.

FOCUS ON SAFETY

Scaffold Design & Calculations

Hercules 'Scaffold Design & Calculations' service continues to expand with Engineers operating from Bristol, London and Birmingham.

To fully comply with BS5973, BSEN12811, SG4:05 & T20.08 Hercules uses qualified independent scaffold engineers to provide design & calculations for specialised structures; these include: Freestanding scaffolds, scaffolds with multiple boarded and working lifts, Cantilevered scaffolds, Temporary roofs, Sheeted scaffolds, Loading bays, Support scaffolds, Bridges & Pedestrian footbridges, Advertising hoardings, Any structure subject to vibration, high loading & long term duration.

For guidance on the HSE comprehensive list, please visit the following HSE link: - <http://www.hse.gov.uk/construction/scaffoldinginfo.htm>

Once design drawings have been approved our experienced scaffolders can quickly and efficiently erect the scaffold structures in a cost effective manner. Please contact our sales department if you are unsure whether or not your scaffold structure requires a formal design.

If you require further information on this service please call 0845 003 90 89 or email sales@herculesgroup.co.uk

February iPod Touch 8GB Winner Announced:

We are pleased to announce the winner of February's iPod Competition.

Mr Max Alexander of Enviro Protect Insulation Ltd has been February's lucky winner of the iPod Touch 8GB.

This super gift will be sent to Max in early March. Congratulations from all at Hercules.

The February competition was so successful that we will be running the competition again in March.

To improve the quality of our data base, we invite all of our readers to pass on 4 new email addresses within the construction industry to enable us to add them to our Newsletter data base. Simply reply to this Newsletter by emailing sales@herculesgroup.co.uk

The iPod Touch winner will be selected by an independent third party and posted to the winner before the end of April.

Data Protection: No details will be passed to a third party. The email addresses will be used exclusively for the Hercules Newsletter.

Next month's issue will include details on Hercules Scaffolding Ltd's:

- Major Civil Engineering project awarded to Hercules Scaffolding
- Surveyors & Insurers call on Hercules expertise for High Rise scaffold
- Young's Brewery use Hercules to install Giant Poster!
- Focus on Safety update. Tying in Scaffold Correctly & Hilti Pull Tests.
- March iPod Winner announced

On time. On budget. Job Done.
